Maximus Capital S.A. is launching a new business direction– Capital Introductions

In November of 2012 Maximus Capital S.A. has launched the Capital Introductions business.

The senior management of Maximus Capital S.A. has been providing treasury management and capital markets advisory services to small / medium size CIS banks for the past 15 years and has built up a loyal client network. Based on our deep knowledge of the region we decided to put together a dedicated team to work with our institutional clients seeking introductions to the investors from the CIS region.

The team is headed by Tatiana Covalliova, Managing Director, and is under direct supervision of Gene Zolotarev, founder of Maximus Capital.

We will provide our hedge fund clients with targeted introductions to the Russian and CIS High Net Worth Individuals, small to midsized banks, asset management companies, pension plans, foundations, family offices and investment advisers. Maximus Capital S.A. has cultivated working relationships with more than 800 private and institutional investors in the region over the years in business. In addition, the extensive network of heads of treasuries and board members of the CIS banks will be tapped to ensure maximum impact from the meetings that we arrange for our clients.
