

Vortex Systematic Program: FX

The Vortex Systematic Program is a short to medium-term strategy trading the world's most liquid instruments. This factsheet is a representation of the **spot FX currency component only**, extracted from the normally diversified Vortex Systematic Program. Currencies give investors the opportunity to profit from most major international economic and geopolitical events. Currencies also provide essential diversification from all traditional asset classes. The returns shown below reflect the base version of the program and are net after all fees.
