The medieval castle ruins from the 13th century are the symbol of Cesis and, together with its park, create the romantic atmosphere in the town. Cesis Castle-Manor house or New castle was built in the 18th century by using the forepart of the Medieval castle walls and defence towers. Boughs are a national architectural monument. The cobbled streets of Cesis Old Town have preserved their layout from the Middle Ages, keeping also the old buildings with red tiled roofs, closed yards, and restored facades of the buildings.

The major objective of this conference is to bring together experts from the various fields of banking and finance to share their valuable industry insights with our audience. Over two days, financial organizations and business elites will share their innovative ideas and experiences during interactive sessions, discussion workshop and networking functions. We expect to host up 70-100 delegates from more than 25 countries. It is an open secret that personal relations are crucial for doing business in Russia in the CIS, and our event gives you a chance to generate the contacts that will help you enter and win business in the Russian/CIS marketplace.

What makes our event so unique? Our program has been specially geared towards giving you ample time to network and develop your contacts in the informal “Team building” and “Networking” environment, that is why our program includes ethnic-style entertainment lunches and dinners at the exclusive restaurants and many other group activities.

Sincerely,

Maximus Capital Team
